

# St. Georges Nursery School After school & Holiday Club

"At St. Georges Nursery you enter a child centred environment; everything revolves around your child. We ensure that children

St Georges provides care during out of school hours and school holidays for children between the ages of 4 and 10. During these sessions our aims are to provide a happy, stimulating and fun environment for your child.

Children attending after school club are given help with any homework or reading given from school. They will also have the opportunity for extra curricular activities, quiet time, outdoor play and games.

Our summer scheme is aimed for children to have fun during their time here. Although our weekly timetables have been primarily planned with this specific aim, a variety of well-structured activities are offered.

Children attending after school club are provided with afternoon tea. Holiday care club will include meals at appropriate times.

We offer an early birds club for children to attend before school, where children can have breakfast before they go off to school.

# For your peace of mind...

The nurseries are registered with Ofsted, and the staffing ratios comply with The Children Act 1989. We are also a member of the National Day Nurseries Association.

## Health and Safety

St Georges will ensure that the highest standard of cleanliness is maintained. If accidents happen, they are treated and recorded fully. All our sites have full CCTV and a secure access system. For added comfort, all our nursery sites are fully air conditioned.

## Meals

Our qualified and talented chef prepares fresh meals daily on the premises. Meals are provided to meet your child's individual requirements. The meals are varied, offering a balanced nutritional diet. We aim to provide low salt/sugar diet.

## Outings

Children are regularly taken on Nursery outings. These may include picnic trips to the park, the library, museums or shows. Wherever buses are used we ensure that they are child friendly and have fully fitted seatbelts.

## Education

At St. George's Nursery, we take a balanced approach to after school care. In addition to helping children with homework we encourage children's own natural desire to learn.

## Pick-up Service

Some of our nursery sites offer a drop-off and pick-up services to and from school. Ask at your local nursery for details.
